Main benefits of National Focal Points

- Facilitating exchange of information and synergy between national institutions
- Improving access to stakeholders (« who does what »)
- Taking benefits of new information and communication technologies
- Exchange of experiences and good practices with other Mediterranean countries
- Water portal of reference for the country
- A node of the Euro-Med system

NFP: 20 Countries - 15 active web sites

Institutions

The Management of the Water Resources of the Cyprus is carried out mainly by two Ministries, the Ministry of Agriculture, Natural Resources and Environment which through the [Department of Water Development](#) is responsible for all technical and administrative aspects of water resources development, protection and management and the [Ministry of the Interior](#) which is mainly responsible for the administration at the consumers level. Other institutions are responsible for waste water collection treatment and other activities which make the task of water management more complicated. At present there are plans by the Government to reorganize the institutional set-ups of the water sector through the establishment of a water entity to undertake responsibility for the management of all water resources responsible for all the water cycle.

INSTITUTIONS

The main institutions dealing with water sector:

A number of governmental and non-governmental organisations have direct and indirect interest in the development and conservation of water resources in Turkey. Institutional framework has three levels; namely, decision making, executive and users level. In decision making level, prime ministry, state planning organisation and ministries take place. Governmental organisations under the ministries are at the executive level.

There are both governmental and non-governmental organisations at the water users level for the operation and maintenance of the projects. The four main organisations responsible for development of water resources are General Directorate of State Hydraulic Works (DSI), General Directorate of Rural Services (GDRS), General Directorate of Bank of Provinces (Iller Bank), and General Directorate of Electric Power Resources Survey and Development Administration (EIE).

- [General Directorate of State Hydraulic Works \(DSI\)](#)
- [General Directorate of Rural Service \(KHGM\)](#)
- [General Directorate of Bank of Provinces \(Iller Bank\)](#)
- [General Directorate of Electric Power Resources Survey and Development Administration \(EIE\)](#)

The [EMWIS](#) is the Euro-Mediterranean Information System on the know-how in the Water sector.

The Turkish focal point is the [General Directorate of State Hydraulic Works \(DSI\)](#)

Glossary [Click here to download the glossary for legal words found in the legislation provided below](#)
The glossary provided is in English and Maltese.

Ligijiet ta' Malta dwar l-ilma

(Maltese legislation dealing with water - [Click here for English version](#))

Hawn taht issib il-ligijiet prinċipali u l-legislazzjoni sekondarja li għandhom x'jaqsmu ma' l-ilma u li huma fis-seħħ f'Malta, agġornati skond l-emendi u l-ligijiet godda approvati mill-Kamra tar-Rappreżentanti ta' Malta.

L-emendi għal-ligijiet eżistenti hekk kif approvati mill-Parlament huma integrati fit-test originali, għaldaqstant it-test muri huwa l-verżjoni attwali tal-ligi. L-aħħar 'version update' hi ndikata isfel. Għall-finijiet tal-Ligi Maltija, din mhix kunsidrata bħala l-verżjoni uffiċjali u awtorizzata tal-Ligijiet ta' Malta.

Għamilna l-aħjar li stajna biex nagħzlu l-ligijiet kollha li fihom jissemma l-ilma. Minkejja dan, ma neskludux li nqabzu xi ligijiet jew regolamenti.

Training

With the Countries' social and economic development, the problems related to water resources and the environment are increasing. The water sector and, more generally, the one related to the natural resources safeguard, require a continuous updating for everyone involved. In Italy there are several firms and institutes dedicated to training. These entities can be divided into two categories:

The screenshot shows the SEMIDE EMWIS website interface. At the top left is the SEMIDE EMWIS logo. To its right is the title "GestionDonnees" and the text "Dernière mise à jour: 2002-12-09". On the right side, there is a waving flag of Lebanon. Below these elements is a horizontal navigation bar with buttons for "Accueil", "Nouvelles", "Contexte", "Institutions", "Documentation", "Formation", "Recherche", and "GestionDonnees". The "GestionDonnees" button is highlighted. Below the navigation bar, the text "LA GESTION DES DONNEES" is displayed in red. Underneath, the section "I- GESTION DES DONNEES HYDROLOGIQUES" is shown in blue. This section contains two bullet points, each with a blue circular icon and a blue link:

Technological tools

Promising Results at the National level

- A political support at the highest level
- System ownership at the national level
- Reinforcement of the spirit of Partnership in the countries
- An information node and access point in the water sector in each country
- Exchange of knowledge between the Euro-Med countries
- Reinforcement of the Institutional capacity building to manage and develop the National Water Information Systems
- Raising awareness among the actors and showing them the importance & the benefits of information sharing
