What is the Arab Water Week?

The Arab Water Week is a high-profile international and regional event promoted to attract decision makers and water management practitioners and professional organizations internationally and in the MENA region. It was firstly launched in Amman, Jordan in December 2010 and organized by the Arab Countries Water Utilities Association (ACWUA) in partnership with the Arab Ministerial Water Council (AMWC) and the Jordanian Ministry of Water and Irrigation (MWI). The second Arab Water Week will present ACWUA's second international conference and exhibition.

Why to attend the Arab Water Week?

The Arab Water Week is an important and distinctive opportunity for water and wastewater management community in the Arab world and MENA region, it is the point where water management professionals, private sector, and institutions of all types meet to exchange ideas, knowledge and experiences, discuss problems and get exposed to state of the art new technologies and solutions. The Arab Water Week will provide a broad technical

presentation and policy-based program, along with a specialized exhibition (The Arab Water Trade Fair) targeting water supply and wastewater vendor's and other service providers in the water sector.

Who will attend?

ACWUA expect more than 500 participants and delegations to attend the second Arab Water Week in Amman. Many will be coming from ACWUA membership comprising of more than 200 individual members, more than 95 water and wastewater utilities from 18 Arab Countries; Algeria, Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Palestine, Saudi Arabia, Sudan, Syria, Tunisia, United Arab Emirates and Yemen. The Arab Water Week is also aimed at senior decision makers from public and private water and waste water utilities/water supply companies, water ministries & authorities, environmental agencies & ministries, municipalities, utility operators, private sector companies and consultants and educational institutions across the region.
