## CONFERENCE TOPICS

- Chemical Waste Management
- Circular Economy
- Designing Green Pharmaceuticals, Drugs and Cosmetics
- Development and Identification of Novel Green Technologies, Products and Perspectives
- Eco –design / Design for sustainability
- Education in Green Chemistry and Engineering
- Environmental Concerns, Ethics and Green Policies
- Environmental Economics
- Environmental Legislation and Policy
- Environmental Quality and Climate Stability through Chemistry
- Environmental Scores and Measures
- Environmentally Benign Processes and Products
- Green Catalysis and Biocatalysis
- Green Development
- Green Energy
- Green Remediation
- Green Solvents
- Industry - Environment & Health
- Life Cycle Assessment & Relevant Management Issues
- REACH Directive and EU Guidelines for Industrial Chemicals
- Sustainability in Production and Consumption
- Case Studies, and Monitoring
- Toxicology and Ecotoxicology of Chemicals and Products
- Zero waste management

## SELECTED SUBMISSION-PUBLICATION

The submitted papers will be reviewed by the Scientific Committee and the authors will be notified by June 20, 2018. The papers accepted for the oral or poster presentation of the conference will be published as abstracts in book format e-proceedings. The full papers should be submitted up to July 15, 2018; they will be uploaded at the conference website that will be accessed by conference participants via password. The organizing committee is in contact with international scientific journals and selected articles from the conference may be published in special issues, after they are reviewed. The conference participants will be informed regarding these issues via e-mail. Authors interested in having their paper eventually to be considered for publication in the special issues of international journals can submit their manuscripts at the conference, or within two months afterwards.
