FEASIBILITY STUDY ON THE DEVELOPMENT OF A REGIONAL WATER OBSERVATION MECHANISM IN THE MEDITERRANEAN REGION

Some collaborative tools for the phase 2 study

Paul Haener

**Manager water information
system division**

International Office for Water

p.haener@oieau.fr

3 main multilingual collaborative tools

- A Web portal
 - For exchange of information between partners of the study
 - For dissemination of first results
 - As a prototype for future MEDWIP portal

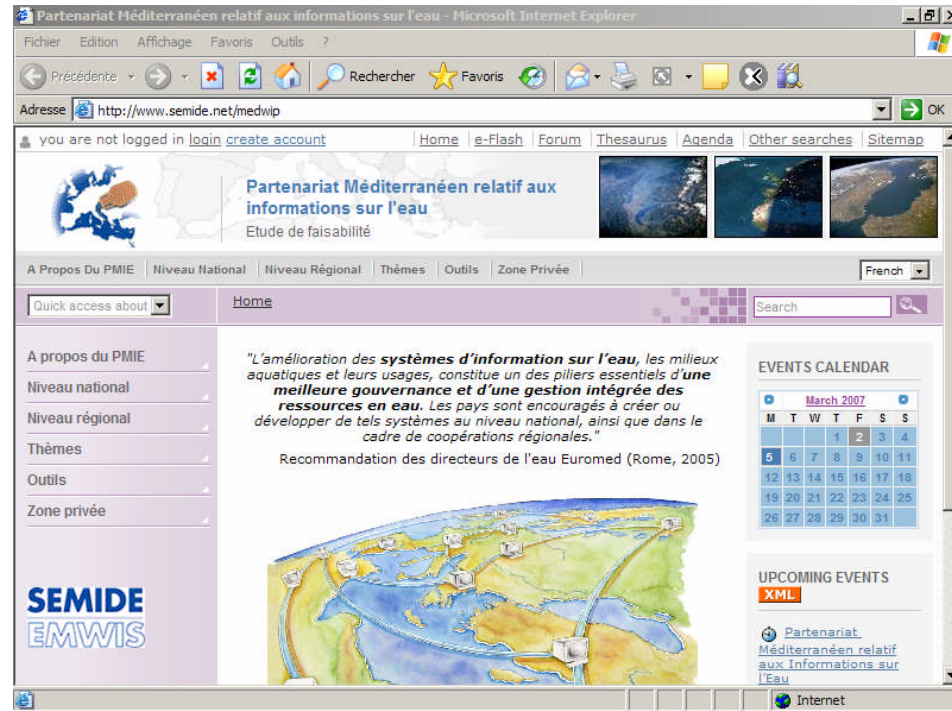

- A catalogue of data and information sources
 - A fundamental tool facilitating and structuring the analysis of the existing situation
 - A concrete output of the MEDWIP feasibility study
 - A catalogue that can further developed at national level
 - Looking for a synchronisation with others existing catalogue
 - A future potential “**Google**” of water related data sources in the Mediterranean region

- An interactive map prototype
 - As a demo prototype of one of the future outputs of MEDWIP

Medwip Web portal

- Collaboration tool for information exchange and presentation of the study results, with chapters on:
 - National activities
 - Regional initiatives
 - Topical activities
 - Access to the catalogue of data source and to an interactive Web mapping tool
 - Agenda
 - Last news

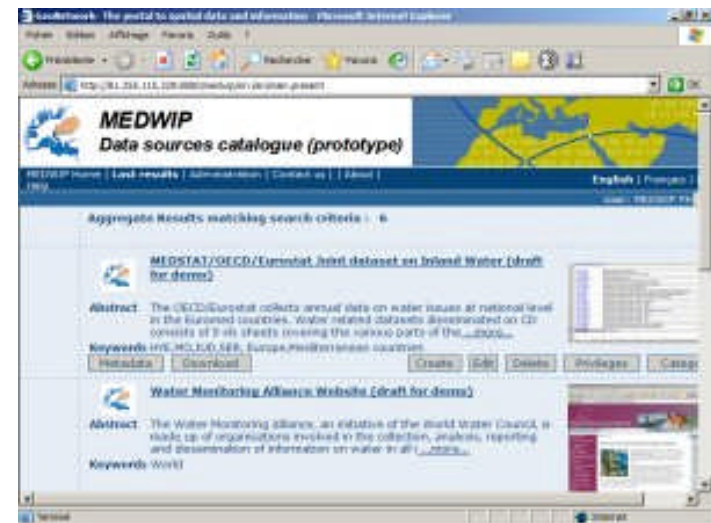

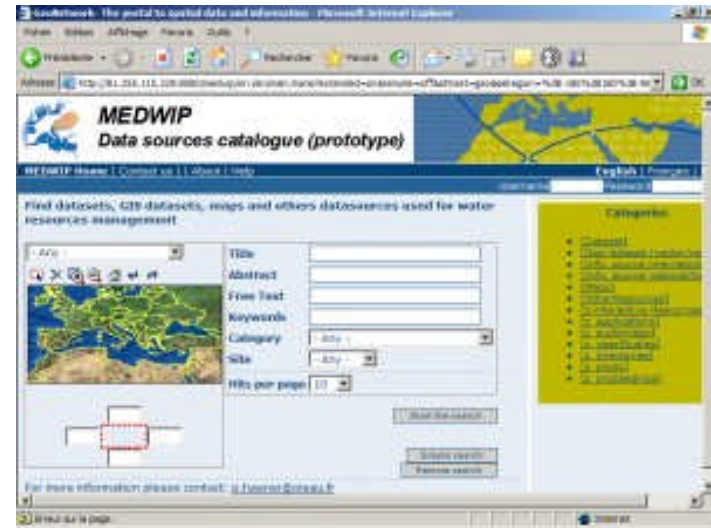

<http://www.semide.net/medwip>

Catalogue of data sources

- Identification of available datasets and data sources with geographic and/or keyword research system
- Downloading or access to interactive maps possibilities following access right defined by the data producers

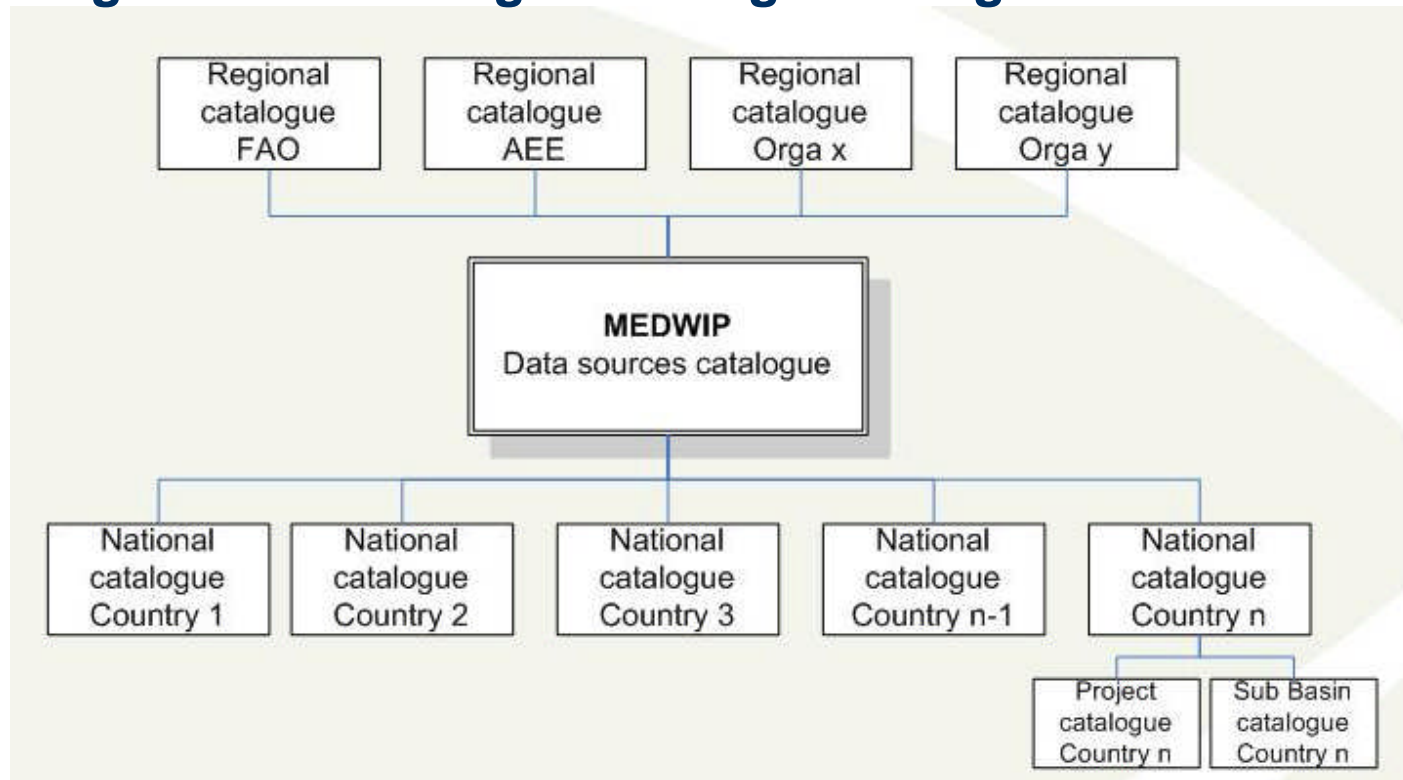

<http://81.255.115.229:8080/medwip/srv/en/main.home>

The catalogue as a tool for collaboration

- Through a distributed catalogue synchronized with national catalogues and catalogues of regional organisations

Example catalogue orga. régional, case FAO

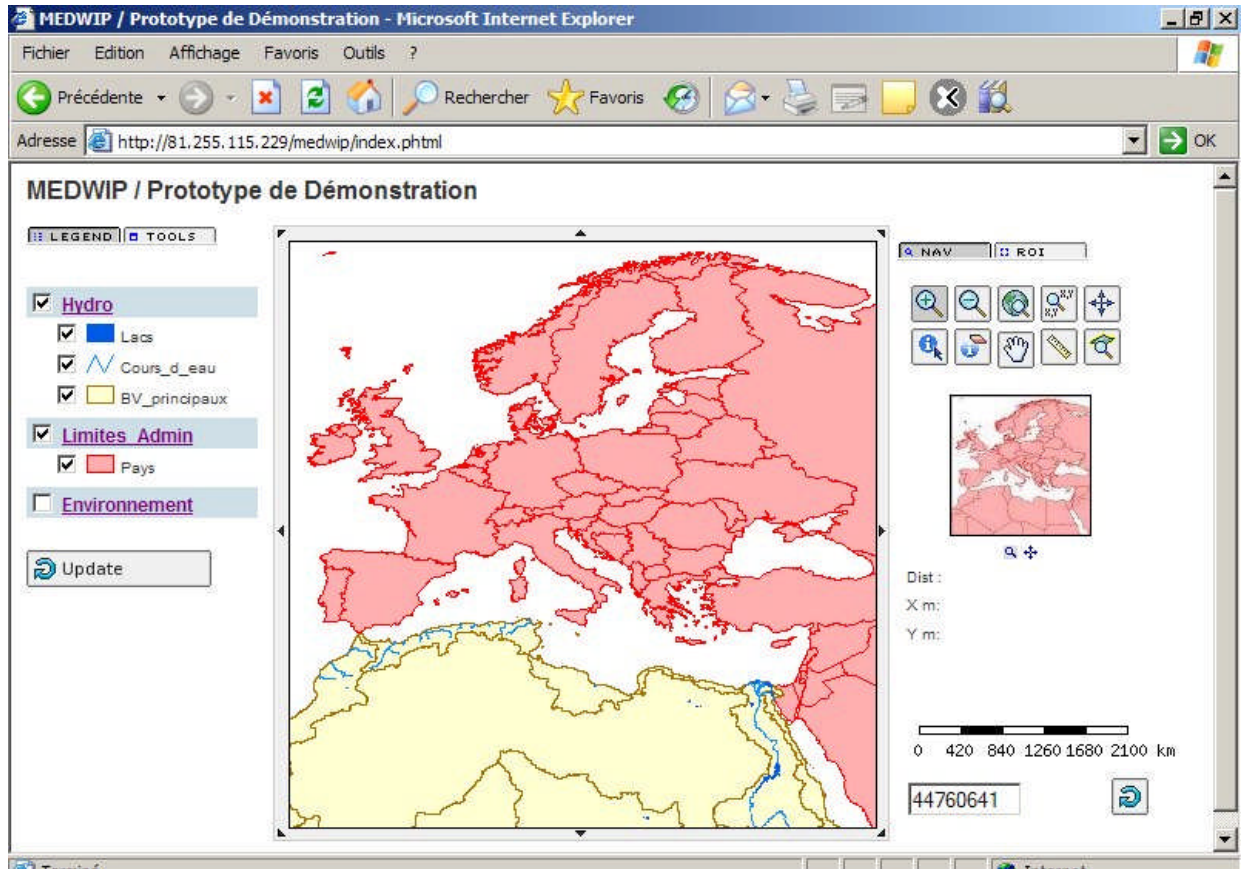

Example national catalogue case France/SIE

Example local catalogue of a transboundary FFEM project

Interactive Web mapping (prototype)

- Demonstration prototype
- Allows:
 - Selection of layers
 - Zoom (up to aerial photo as test)
 - Request for attributes information
 - Calculation of distance
 -
